

## 1013526012

12 Pole white polyamide barrier insert pillar terminal block 10 mm pitch 32a 450v

### SPECIFICATION

|                                    |                       |
|------------------------------------|-----------------------|
| <b>Number of Poles</b>             | 12                    |
| <b>Terminal Material</b>           | Nickel-plated brass   |
| <b>Terminal Type</b>               | Barrier               |
| <b>Body Material</b>               | White polyamide       |
| <b>Colour</b>                      | White                 |
| <b>Base Type</b>                   | Standard              |
| <b>Min Conductor Size (Sq mm)</b>  | 0.75                  |
| <b>Max Conductor Size (Sq mm)</b>  | 4                     |
| <b>Max Current (A)</b>             | 32                    |
| <b>Max Voltage (V)</b>             | 450                   |
| <b>Working Temperature</b>         | T125                  |
| <b>Pitch (mm)</b>                  | 10                    |
| <b>Length (mm)</b>                 | 117                   |
| <b>Terminal Screw Material</b>     | M 3 zinc-plated steel |
| <b>Tracking Resistance CTI (v)</b> | 250                   |
| <b>Wire Protection Material</b>    | Chrome-nickel-steel   |
