

Grommets

Range: Cable Glands/Grommets

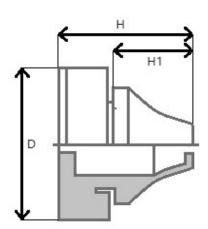

Order Code: 14 582 33-F

Pierce the grommet with the cable.

The cable will be locked into position by pulling it back about a centimetre.

DESCRIPTION

A cable seal that is very simple to use and does not require any installation tools. This rubber grommet has a pop-out membrane ensuring a round hole every time, safeguarding the IP67 rating. Measurements:

D = 20mm, H = 12.7mm, H1 = 5.4mm, Panel hole diameter = 12.5mm, Panel wall =2-5mm

CABLE GLANDS/GROMMETS FEATURES

- · SEMKO tested for IP67 internally and externally
- Produced in EPDM and Chloroprene rubber in both PG and Metric sizes
- · Ideal where space is restricted, the cable seal adapts to round surfaces
- · Very high finish, ensuring the same even and high quality on all products
- ROHS Compliant

Subject to technical modification without notice. Typographical and other errors do not justify claim for damages.

MAKING THE **RIGHT** CONNECTIONS
