

# Grommets

## Range: Cable Glands/Grommets

Order Code: 14 582 24

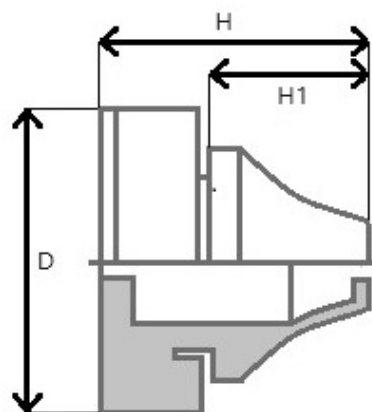

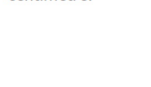

*Push the grommet into the hole.*

*Pierce the grommet with the cable.*

*The cable will be locked into position by pulling it back about a centimetre.*

### DESCRIPTION

A cable seal that is very simple to use and does not require any installation tools. This rubber grommet has a pop-out membrane ensuring a round hole every time, safeguarding the IP67 rating. Measurements: D = 35mm, H = 24.8mm, H1 = 17.6mm, Panel hole diameter = 29mm, Panel wall = 1.4mm

### CABLE GLANDS/GROMMETS FEATURES

- SEMKO tested for IP67 internally and externally
- Produced in EPDM and Chloroprene rubber in both PG and Metric sizes
- Ideal where space is restricted, the cable seal adapts to round surfaces
- Very high finish, ensuring the same even and high quality on all products
- ROHS Compliant

*Subject to technical modification without notice.*

*Typographical and other errors do not justify claim for damages.*

## SPECIFICATION

Product Type	Rubber Grommet
Sealing Ring Material	EPDM
Min Temperature Rating °C	-40Â°C
Max Temperature Rating °C	+110Â°C
IP Rating	IP67
Colour	Grey RAL7001
Hole Diameter (mm)	14-20
Thread Size	PG21/28.3
Test Standard	EN IEC 60670-6
